Sun Stellar has been established for more than 12 years. Founded by Mr. Davinder Taluja and Mr. Karan Taluja, the company is a provider of sustainable energy solutions, offering solar water heaters, water tanks, and solar power generating systems.

The company, regarded as the Best Solar Water Heater Manufacturer, aims to reduce customers' dependence on fossil fuels and help them save money on their energy bills. Their products are efficient, affordable, and easy to maintain, even in harsh weather conditions. Sun Stellar, considered among the most trustworthy Heat Pump Manufacturers in India, also provides customized solar power generating systems for homes, businesses, and communities, meeting unique energy needs. The company has certified experts who to provide advice on selecting the best sustainable energy solutions.
